HERBACEOUS PEONIES

For centuries the Peony has held its place as the most magnificent and beautiful of perennial flowering plants. They are hardy in the coldest climates and thrive in practically all parts of the temperate zone.

The soil best suited to their culture is a natural loam with a clay subsoil. They do not require humus or peat moss and manure should not be used in the soil preparation. A little bonemeal mixed with the soil at time of planting is best suited to the needs of the plants in after years.

Planting should be done during the fall months for best results. From early September until garden work is interrupted by unfavorable winter weather. In planting, dig generous holes and loosen the soil in the bottom of the hole. Set the roots so the eyes are pointing upward and so that they will be about two to two and a half inches below the surface of the soil when planting is completed. Firm the soil about the roots.

The following is a list arranged by color and carefully selected from among hundreds of varieties in commerce and contains a representative list of the choicest varieties to be had in each of the color classifications.

DOUBLE AND SEMI-DOUBLE.

WHITE, BLUSH and YELLOW TINTED.

Alesia	\$5.00
Alice Harding	2.50
Baroness Schroeder	1.00
Dr. J. H. Neeley	2.50
Duchess d Nemours	1.00
Festiva Maxima	1.00
Frank E. Good	2.50
Gertrude Gibson	2.50
Harry F. Little	5.00
John M. Good	2.50
Joseph Christie	5.00
Judge Snook	5.00
Le Cygne	3.00
Marie Jacquin	1.50
Moonglow	5.00
Mrs. Harry F. Little	5.00
Mrs. J. V. Edlund	2.50
Odile	2.50
Thura Hires	5.00
Yosemite	6.00

PEONIES

LIGHT AND MEDIUM PINK

Edwin C. Shaw	2.00
Ella Christiansen	2.00
Dianne	5.00
Douglas McArthur	5.00
Lottie Dawson Rae	10.00

Rare China—China white flat semi-double.....	6.00
To Kalon—(The Beautiful) Pearly white	10.00
Tondeleyo—Deep pink	20.00
Victory—White	20.00

PEONIES FOR CUT FLOWERS

For use as a cut-flower the peony possibly surpasses all other flowers except the rose in popularity, beauty and utility.

Special plantings are maintained in our gardens for the production of choice cut peonies. We especially invite the patronage of anyone wishing extra fine quality of cut peonies during the blooming season, which usually extends through the latter part of May and the first half of June.

CAMELLIAS—AZALEAS AND RHODODENDRONS

In the formation of beautiful garden effects, these groups of plants should, as far as possible, be used together and with a generous hand. With them may also be used a few other ericaceous plants such as *Andromeda Japonica* and *Floribunda*, *Kalmia Latifolia*, the different varieties of *Heather*, etc. In gardens of more scope *Magnolias* may also be introduced as well as other material.

Camellias and Rhododendrons should be given ample space for ultimate development. As much as six to ten feet from each other is not too much. Then the space between them may be planted to Azaleas and other smaller growing material with charming effect.

These plants succeed quite well under any normal soil condition in the Pacific Northwest in that region west of the Cascade Mountains, but for best results proper soil conditions should be attained. The ideal soil is one that is loose and friable with a good amount of peat or humus mixed in. Lime and any fertilizer containing lime should never be used. In the preparation of the soil, any hard clay should be removed and the bed or the holes prepared deep. Preparation to a depth of twenty-four inches or more is not too much.

The following are fairly complete lists of the Azaleas, Camellias and Rhododendrons in stock and growing at the Rosefield Gardens. New varieties are being constantly added from time to time however, so that list contains many items that are very scarce and some that are not available for sale at the present time. This is especially true of the Camellias and Rhododendrons. However, there should be much satisfaction in the fact that among the varieties that are available are some of the choicest and most beautiful in existence. Such varieties in Rhododendrons for instance as — *Loders White*, *Mrs. A. T. deLa Mare*, *Alice*, *Betty Wormald*, *Pink Pearl*, *Countess of Derby*, *Bagshot Ruby*, *Brittania*, *Cornubia*, *C. B. Van Nes*, *Mme. d Bruin*, *Cynthia* and *Unknown Warrior*, to mention a few are all of such beauty as to be the equal of many of the still scarce ones, and it may also be said that many of these may never be surpassed.

Azaleas, Camellias and Rhododendrons and other shrubs are sold and delivered only at the gardens. We make no deliveries or shipments to destination. In most instances the size of the ball of earth containing the roots would make shipment too costly.

Prices are based on size and variety selected.

CAMELLIAS

WHITE AND LIGHT SHADES

Alba Plena	Lotus
Dante	Magnoliaflora white
Duchess of Sutherland	Mathotiana Alba
Ethrington	Mrs. William Thompson
Finlandia	Purity
Imura	

CAMELLIAS

PINK — ALL SHADES

Apple Blossom	Lady Jane Gray
Chandleri Elegans	Lauries' Favorite
Debutante	Laurel Leaf
Ecstasy	Magnoliaflora Pink
Grandiflora Rosea	Marchioness of Exter
Kumasaka	Regina d' Gianti

RED AND RED VARIEGATED.

Adolphe Audusson	Goshoguruma
Black Prince	Julia Drayton
Campbell	Leanna Superba
Colonel Firey	Monjisu red
C. M. Hovey	Te Deum
Donkelaari	Mikenjaku
Daikagura	Princess Bacciochi
Elena Nobile	Rainy Sun
Emperor of Russia	Victor Emanuel
Fanny Bolis	Wakanoura Red
Gigantea	

AZALEAS

DECIDUOUS AZALEAS

Mollis—Shades of orange.
Schlippenbachi—Pink.
Altaclarensis—Yellow.

KAEMPFERI HYBRIDS

These hybrids are among the most showy of the hardy Azaleas. The blossoms are very large and the plants are practically evergreen.

Atalanta—Soft lilac.
Betty—Orange pink.
Carmen—Large rose red.
Cleopatra—Rose pink, smaller flowers.
Fedora—Similar to Carmen.
Oregon Pride—Large salmon pink.

KURUME AZALEAS—Evergreen

Coral Bells—Shell pink.
Hexe—Deep scarlet. One of the best.
Hinodegiri—Firey red. Dwarf plant.
Pink Pearl—Salmon rose or pink.
Snow—Pure white.
Vivid—Vivid red. Somewhat tender.

MISCELLANEOUS AZALEAS

Amethystina—White with lavender pink blush, spotted rose pink. Very large blossoms.
Amoena Coccinea—Small individual bloom, vivid red.
Gumpo—Very large ruffled white on small dwarf plants.
New variety.
J. T. Lovett—Deep salmon pink. Late bloomer.
J. T. Lovett, fl. pl. Double form of above. Rose like double bloom.
Ledifolia Alba—Pure white large bloom. Plant grows larger than the Kurume Azaleas.
Macrantha—Late, salmon pink.
Maxwelli—Bloom large, deep rose. Late bloomer.
Rosaflorea—Salmon pink. Double like little roses.

GABLE AZALEAS

Boudoir—Watermelon pink.
Caroline Gable—Radiant pink.
Elizabeth Gable—Lavender. One of the best of this color.

RHODODENDRONS

WHITE AND BLUSH CHANGING TO WHITE.

- *** Dr. Stocker
- *** Loder's White
- **** Loderi King George
- *** Mrs. A. T. De La Mare
- *** Mother of Pearl
- White Pearl

PINK AND ROSE SHADES

- ** Alice
- *** Azor
- *** Betty Wormald
- *** Countess of Derby
- **** Discolor
- *** Elspeth
- *** Faggetters Favorite
- ** Lady Clementine Mitford

- *** J. H. Van Nes
- ** Langley Park
- **** Mars
- ** Mme. de Bruin
- Romany Chi
- **** Tally Ho
- ** Unknown Warrior

YELLOW, ORANGE AND APRICOT SHADES

- **** Fabia—Deep orange bells
- *** Goldsworth Yellow—Pale apricot
- *** Lady Primrose—Yellow
- *** Mrs. W. C. Slocock—Apricot pink shaded to yellow
- *** Souvenir of W. C. Slocock—Primrose
- **** Unique—Pale yellow

BLUE, LAVENDER AND PURPLE

- **** Augustini. Blue. Small flowers. (Species).
- **** Blue Tilt. Blue. Very dwarf.
- *** Blue Peter. Pale lavender blue with deeper blotch.
- * Countess of Athlone. Mauve.
- Old Port. Plum color.
- *** Purple Splendor. Deep Royal Purple.

GENERAL INFORMATION AND INSTRUCTIONS

The ROSEFIELD GARDENS are located twelve miles southwest of down-town Portland, Oregon, on the West Side Pacific Highway, U.S. 99W, and may be reached easily by driving out Fourth Avenue, over Barbur Boulevard, on through Tigard, Oregon, and two miles beyond at the intersection of Durham Road. Or over any other road or highway leading into U. S. Highway 99W.

PEONIES.

The blooming season of the peonies is usually from about May 25 to about June 15th to 20th. Visitors are invited to the Gardens to see the bloom of the different varieties. If you are interested in securing peonies for your own garden, this is the ideal way to make selections.

Stock is available for delivery or shipment through the fall months (September to about December 1st). We make shipments of Peonies to all parts of the United States.

AZALEAS, CAMELLIAS AND RHODODENDRONS.

These plants bloom through the months of March, April and May and in the case of a few even into June and July. Visitors are welcome to the Gardens all through the blooming season to view the beautiful display. This is also an ideal time in which to make selections of varieties for your own gardens. These plants can be moved and planted during the months of March, April and May in the spring and during September, October and November in the fall.

Azaleas, Camellias and Rhododendrons are available at the Gardens only and we do not make shipments or delivery. Most of them are too large and heavy for packing for shipment.
